EDUCATION

Indian Institute of Technology Bombay July 2024 - Present
PhD in Computer Science and Engineering | Advisor: [Prof. Soumen Chakrabarti](#) | CPI - 9.00/10

Indian Institute of Technology Patna July 2016 - June 2020
Bachelor of Technology in Electrical Engineering | CPI - 7.41/10

EXPERIENCE

AI-NLP-ML Lab IIT Patna Sep 2022 – July 2023
Junior Research Fellow | Advisor: [Prof. Sriparna Saha](#) Patna, India

- Studied the relation between Sarcasm and Dialogue Acts and the role of modality order fusion in these two classification tasks in a multi-modal dialogue setting.
- Developed Plant Care Conversation dataset. It has conversations between user and agent regarding queries related to plants in multi-modal scenarios and build the multi-modal plant care assisting dialogue generation model.
- Studied the role of knowledge graph and patient self-report for disease diagnosis from the conversation between doctor and patient.

OYO Rooms Aug 2020 – Jun 2021
Software Developer Engineer-1 Remote

- Worked with HMS team, developed and maintained backend services for generating reports in OYO OS.
- Used Java, Spring, Spring boot, Microservice Architecture to develop the backend features of OYO OS.
- Worked with PostgreSQL, MongoDB and Elasticsearch databases.

ACCEPTED PUBLICATIONS

Mohit Tomar, Tulika Saha, Abhisek Tiwari, Sriparna Saha. Action and Reaction go hand in hand! A Multi-modal Dialogue Act Aided Sarcasm Identification (LREC-Coling, Main 2024). [[Paper](#)] [[Code](#)]

Mohit Tomar*, Abhisek Tiwari*, Sriparna Saha. Towards Knowledge-Infused Automated Disease Diagnosis Assistant (Scientific Reports 2024). [[Paper](#)] [[Code](#)]

Mohit Tomar*, Abhisek Tiwari*, Tulika Saha, Sriparna Saha. Your tone speaks louder than your face! Modality Order Infused Multi-modal Sarcasm Detection. In Proceedings of the 31st ACM International Conference on Multimedia 2023 Oct 26 (pp. 3926-3933). [[Paper](#)] [[Code](#)]

PROJECTS

Dialogue Graph Encoding [[Code](#)] | *Pytorch* July 2022

- Created Dialogue Graph from dialogue between patient and doctor.
- Applied Graph Attention Network to generate dialogue embedding for medication recommendation.

Graph Attention Network for licit/illicit transaction. [[Code](#)] | *Pytorch* June 2022

- Bitcoin dataset from Kaggle is used for training graph attention network.
- It is node level classification task to determine licit/illicit transactions.
